

SPICE

Scanning the Potentialities for Future ICT Research Collaboration between China and the European Union

Objectives

SPICE will create a solid basis for future EU-China collaboration in information and communication technology (ICT) research by identifying and analysing potential topics and areas of research cooperation and initiatives between China and the European Union. The analysis and outcomes of SPICE will support the European Commission (EC) to create targeted initiatives in thematic sub-areas of ICT.

- SPICE will identify common needs and opportunities for cooperative R&D based on strengths and clusters within ICT.
- SPICE will map competences and potentials of Chinese research organisations in the most promising regions or provinces through a consultation process based on workshops, data analyses, and interviews.
- SPICE will inform its target groups at large events and conferences (e.g. the China High-Tech Fair in Shenzhen) about the opportunities for ICT research collaboration in Europe
- SPICE will select the most prosperous ICT sub-areas for EU-China research cooperation initiatives and report constituencies and potentialities for deeper strategic cooperation between the European Union and China.

***SPICE is part of the portfolio of the International Relations Unit
DG Information Society***

Target Groups

- European and Chinese companies which already conducted European-Chinese R&D cooperation
- ICT experts in China and Europe who are potentially interested in future cooperation projects
- Industry and investors from Europe and China
- European and Chinese RTD policy makers and the European Commission

SPICE - FACTS

Specific Support Action
IST-Programme / FP6
Contract Number IST-045266

Starting date: November 1, 2006
Duration: 21 months

PROJECT PARTNERS

- eutema Technology Management (Austria)
- China S&T Exchange Center (PR China)
- Skillnet (Germany)
- China Academy of Telecommunication Research of MII (PR China)
- China Hi-Tech Transfer Center (PR China)
- Skillnet Consulting Shanghai (PR China)

SPICE

未来中国和欧盟

ICT 研究合作的潜力分析

目标

SPICE项目将会通过识别和分析中国与欧盟研究合作的潜在议题和领域，为未来中欧信息通信技术（ICT）研究合作奠定坚实的基础。SPICE项目的分析和研究结果能帮助欧洲委员会（EC）在ICT的主题分支领域制定目标明确的计划

- SPICE项目将在ICT领域内，为合作性研发寻找共同的需求和机会
- SPICE项目将通过以研讨会，数据分析和访问为基础的咨询过程，分析在中国最有发展前景地区或省份的研究机构的现状及潜力
- SPICE项目将把欧洲ICT研究合作机会的信息，通过大型会议和展览会（如深圳高交会）发布给目标机构
- SPICE项目将选择某些最活跃的ICT分支领域为研究对象为中欧研究合作计划、中欧更深层的战略合作，分析报告合作潜力

目标团体

- 已经进行中欧研发合作计划的中欧公司代表
- 对未来合作计划感兴趣的中欧ICT领域专家
- 欧洲和中国ICT业内人士和投资者
- 研究欧洲委员会技术政策的中欧代表
